Comforting Words

Many a Norway Household Will Find Them So.

To have the pains and aches of a bad back removed—to be entirely free from annoying, dangerous urinary disorders, is enough to make any kidney sufferer grateful. The following advice of one who has suffered will prove comforting words to hundreds of Norway readers.

"I suffered for five years from back-ache," says Hiram Lovejoy, Myrtle Ave., South Paris, Me. For days at a time any sudden move caused added pain. The secretions from my kidneys were too frequent in passage and my rest was broken at night. I lost health and strength and felt discouraged. When one of the family asked me to try Doan's Kidney Pills, I did so. I began to improve at once. It was not long before my kidneys were in good working order."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Lovejoy had, Foster-Milburn Co., Props., Buffalo, N.Y. 22-23

KIDNEY TROUBLE CAUSES INTENSE SUFFERING

Sixteen years ago I was taken sick with Kidney trouble and suffered terribly for three months. I did not work during this time and was mostly confined to the bed. After using other remedies I finally tried a bottle of Swamp-Root. I immediately began to feel better, and after using seven fifty-cent bottles, was entirely cured and have had no Kidney trouble since. I can truly say that I owe my good health to Swamp-Root. You may publish this letter for the benefit of other people afflicted as I was with the hope of bringing to their attention this most wonderful remedy.

Yours very truly, Hattie A. Quimby, 36 Spruce St. Waterville, Maine. State of Maine Kennebec County, ss

Personally appeared the above named Hattie A. Quimby, who subscribed above statement and made oath that the same is true in substance and in fact.

Anna M. Drummond, Authorized to administer oaths, etc.

You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention the Norway Weekly Oxford Co. Advertiser. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

THE VACANT HOUSE

Along, I cross the threshold worn, Neath moss-grown roof and moulding wall, In musty rooms so cavernous and dim, Where gloomy silence broods o'er all.

Through the old house, now damp and chill, Many a voice now still, has rung, Many a smile and many a tear, Cheered or saddened those lives among.

Some mother here, has soothed her child, Singing some low sweet lullaby, Read peasant rhymes, or stories wove, Some childish mystery to destroy.

The dusty stairway that I tread, This shall so strange and tenantless, In mystic thought I wander through, You corner where the spider weaves, Dust covered is each silent thread, I list, faint echoes come to me From the empty attic overhead.

But vacant now, the house and still, And yesterdays' joys and tears, While each tomorrow its shard will prove, No foot fall comes, a home to cheer.

From neath the rotting eaves and grey, The sunbeams find their way and gleam, Vagrant! Ah, dream the echo falls, And at last vague shadows come and go, Of olden days, and olden gleams.

THE FRIEND WHO HAS GONE One more friend has joined the number One more loved one to remember, One more loved one to remember, One more pilgrim gone before.

We shall miss him at the fireside, When the winter breezes blow, We shall miss him in the summer, And when autumn harvests glow.

We shall look and wait and listen For his coming as of yore, For his smile and welcome hand clasp That this world cannot restore.

Faith should teach no grief to borrow, Though our loss we sorely feel, That God's heaven cannot sorrow, That God's heaven cannot weal.

STATE HIGHWAY Contract for construction of State highway in Oxford, Oxford County, 3.77 miles sand-clay road to J. H. McGregor, Rumford, \$15,987.90. Contract to be completed before Nov. 1, 1915.

A peculiar situation faces the commission in Oxford county but it is hoped that it may be solved satisfactorily. There is no gravel to use in highway construction, but to get rid of this a long stretch of road across the famous Oxford Plains is to be built of sand and clay, one of the first to be constructed in Maine by the Highway commission. The Oxford Plains road is on the main traveled highway and work has been needed here fully as badly as in any other section of Maine.

House No Longer a Castle William Marconi, inventor of the wireless telegraph has made it known that he has invented a new apparatus by means of which it is possible for a person standing beside a solid partition, such as a brick wall, to look through the partition and observe what is happening on the other side, just as if no obstacle were interposed to the vision. Mr. Marconi is quoted as saying that the device has been perfected to the point where persons in a room can see persons in an adjoining room looking through the wall if the person will see who is close to the wall, but that at a distance from the wall they become blurred.

Like Food, Must Be Fresh To Be Good

Real tobacco flavor depends upon the leaf being pressed in its natural state, possible only by pressing the leaf into plug form and keeping it in by covering it with a natural leaf wrapper. The natural flavor and richness of tobacco escape when cut or granulated.

Take a Plug of Sickle that is even thoroughly dried out that when you whittle it off it crumbles into dust, but it burns and smoke smooth and cool as it has all of its original tobacco flavor preserved, unevaporated in Plug Form.

Whittling a pipeful is little trouble, amply repaid both quality and quantity. Try this experiment and see for yourself.

"I cannot say too much for Peruna. It has entirely cured me of my trouble. My eyes were thick and red nearly all the time. My eyes were especially sensitive to light. Catarrh was my trouble. I had had my eyes treated and took a great deal of medicine, but nothing seemed to help me until I tried Peruna. When my family always use Peruna when my family need it. Always find it very good. It helps wonderfully. You can use my testimonial anywhere you wish to." So says Mrs. C. Skehan, No. 614 S. Leavitt St. Chicago, Ill.

OPENING OF THE FISHING SEASON

The opening of the fishing season gives occasion to suggest extreme care on the part of fishermen in the matter of fires. The ground is dry and is covered with dry leaves and brush, and vegetation is in the event of a fire being started, thousands of acres have been burned over.

The statutes maybe drastic, but state is a large force of fire wardens, both State and Federal, but they are not omnipotent, so it is within the bounds of possibility for a fire to get a start before the warden can reach the scene and valuable property may be destroyed.

The only way to avoid destructive fire is to take every precaution against letting it get started. The State of Vermont has laws so strict and so carefully are they observed that in many localities lumbermen are allowed to smoke only in the camps.

It is probably asking too much of fishermen and other sportsmen to refrain from the use of tobacco, but it is not unreasonably to suggest the utmost care in prevention of destruction of property and possible loss of life.

Real Worth vs. Low Cost

If you asked your butcher for a porterhouse steak and he handed you a cut of the flank and said, "This doesn't cost as much and is just as good," you wouldn't believe him, would you?

Yet the butcher's statement is just as truthful as the assertion that inferior baking powders made of alum or phosphate of lime are as good as Royal, which is made from cream of tartar.

Alum is a mineral acid salt, declared by many medical authorities unsafe to use in food.

Royal Baking Powder is as pure and wholesome as the vineyard grapes from which its cream of tartar is derived.

The only reason for using such substitutes as alum and lime phosphate is because their cost is less to the manufacturer.
